

Team Work Evaluation

Our team was composed by:

- Pepe Cano-Manuel Claver, 7272626
- Ana San Román Gaitero, 9918647
- Raquel González López, 4860551

At the beginning of the team assignment we discussed and decided on the following evaluation criteria:

- Proactivity
- Critical and creative thinking
- Communication and contribution between team members
- Sharing workload
- Participation in meetings
- Punctuality

We allocated points to each of the team members for the chosen criteria from 1 (worst) to 5 (best). The average refers to the average contribution of each of the members.

<u>Team member</u>	A	B	C	D	E	F	<u>Total</u>
Pepe Cano-Manuel Claver	3	3	2	4	3	3	3
Ana San Román Gaitero	2	4	3	3	3	3	3
Raquel González López	3	3	3	3	4	2	3

It is clear that each of us are aware of our weaknesses and strengths. Overall, the project has been balanced and we all have contributed evenly to the quality of the project.
